[MCO name]
[MCO address]

Dear [your regional MCO rep or director],

I am writing to request a rate re-negotiation with your company as soon as possible. It has come to our attention that the TX HHSC has announced that they are going to implement the Medicaid therapy rate cuts as proposed for October 1, 2015. Based on the rates currently paid, we are at: _____ of the current prevailing Medicaid rate (PMR).

When the new rates go through at TX HHSC which are proposed to be implemented on December 15, 2016, our compounded decreased rates with your company will drop to _____ of the current PMR (pre-implementation rates).

When these compounded rate decreases go into full effect, we are extremely concerned that this will cause an access to care (therapy services) for your members in our patient base and therefore urgently request a meeting to discuss how we may continue working together to provide care for your members.

Thank you,

[Name of clinic]
